STANDARDS & CERTIFICATION

March 24, 2011

Mr. Robert K. Heusey, Quality Assurance Manager
TW Metals
Nuclear Materials Solutions
880 Brickworks Drive
Leetsdale, PA 15056

Subject: Renewal of ASME Quality System Certificate As A Material Organization (QSC-597)

Dear Mr. Heusey:

Enclosed is your Certificate. If this is a new issuance, the Code Symbol Stamp is also enclosed. The purpose of the Code Symbol Stamp is solely for application to items, which have been built in accordance with the Code, and its use in advertising is restricted. Please note that there are no stamps for Quality System Certificates, Owners Certificates and Certificates of Accreditation.

Since a renewal notice will be mailed eight months (four months for Owners) prior to the expiration date shown on the enclosed Certificate to the individual and address shown above, it is important that we be informed of any changes. In any case, it is your responsibility that we receive renewal applications, including deposit, six months (one month for Owners) prior to the expiration of the enclosed Certificate.

During review of the survey report, the Committee on Nuclear Certification noted that no findings were identified. The Committee on Nuclear Certification wishes to acknowledge your organization's commitment to effective implementation of your Quality Assurance Program.

If you make reference to the ASME Symbol in your advertising, it is required that you follow the "STATEMENT OF POLICY ON USE OF CODE SYMBOLS IN ADVERTISING" which appears in the preliminary material in each Section of the ASME Boiler and Pressure Vessel Code.

Very truly yours,

Bibi W. Rahim, Manager
ASME Conformity Assessment Department
